

HUNG TRAN

.NET Developer

SAIGON TECHNOLOGY
YOUR SUCCESS IS OUR MISSION

OVERVIEW

I have more than ten years of experience in C#, .NET Framework, SQL Server, and JavaScript Technologies. I have been experienced in Front-End Development with HTML5, CSS3, LESS, and Bootstrap for five years. I focus on collecting the requests, implementing, and fixing bugs before releasing packages, researching and applying new techniques, and supporting my team members as well. I also have a knowledge of web responsive using Microsoft technologies.

TECHNICAL PROFICIENCIES

- **Programming Languages:** C#.
- **Skills:**
 - C#, JavaScript, .NET framework for application development
 - MS SQL Server, MySQL databases
 - Mobile web, Mobile app and Progressive Web App (PWA) technology
 - Object-oriented methodology, System Analysis and Design
 - Single Page Application (Web-based), RESTful Web API
 - Front-End development: JQuery, HTML5, CSS3, Bootstrap.
- **Tools:** Visual Studio, Visual Studio Code, Git, Jira, Trello, Slack.

PROFESSIONAL EXPERIENCE

CMS web migration – United States

Developer, Jun 2021 – Present

Project description

- Convert the webform project to SPA using WebAPI and React.
- Working on a team of 9 members including 1 Team Leader, 7 Developers, and 2 QC.
- We were tasked to migrate the current logic from ASP.Net MVC to React page, and separate the logic from monolithic to microservices

Responsibilities

- Development and client communication
- Ensure that deliveries are on-time and on-target
- Implement feature tasks.
- Fixing bugs, supporting team members, and maintaining.
