HIEU BUI

.NET Developer

OVERVIEW

I have more than 5+ years of experience in C#, the.NET Framework, SQL Server, and MySQL Technologies. I have been experienced in Front-End Development with HTML5, CSS, SCSS, Angular 5+, and Bootstrap for one year. I focus on collecting the requests, implementing them, fixing bugs before releasing packages, researching and applying new techniques, and supporting my team members as well. I always advise my team to work with the latest technologies. I also know about handling data using VBA and Python.

TECHNICAL PROFICIENCIES

- **Programming Languages**: C#, JavaScript, and TypeScript.
- **Skills**:
  - C#, JavaScript, and the.NET framework for application development
  - MS SQL Server, MongoDB, MySQL, and Postgresql databases
  - Multi-threaded programming
  - Single Page Application (Angular 5+), RESTful Web API
  - Front-End Development: Angular 5+, State Management with Ngrx. Component Store, HTML5, CSS3, Bootstrap.
- **Tools**: Visual Studio, Visual Studio Code, Git, NPM, Yarn, Jira, Trello, and, Slack.

PROFESSIONAL EXPERIENCE

Fintech

Team leader, July 2022 – Present

Project description
- I am working on a team of 5 members, including 3 Developers and 2 QCs.
- We were tasked with building some services and products to support the existing project as well as optimizing the performance in SQL and C#.

Responsibilities
- Working with the developers from the client to get the requirements and integrate the features to deliver for clients.
- Review code and develop the features.

Technologies
- .NET Core 6, .Net 4.8.
- Storage queue, app service, ADF Azure.
- C#, .Net framework, Web API, and RESTful for back-end.
- Single-page application using HTML5, CSS3, Angular, and Bootstrap UI for front-end.
- Visual Studio, SQL Server, and CosmosDB.
- Window form application technology.
- Entity Framework, LinQ.
- MS SQL Server 2016, Visual Studio code, Visual Studio 2022.

Saigon Technology
2nd & 3rd Floors, M.I.D Building,
02 Nguyen The Loc Street, Ward 12 Tan Binh District, HCMC, Vietnam

ERP

Developer, February 2022 – July 2022

Project description
- I worked on a team of 13 members, including 1 Scrum Master, 1 Team Leader, 9 Developers, and 2 QCs.
- We were tasked with building the main product, a client web, and some service products that support on web and mobile.

Responsibilities
- I worked with the Project Coordinator to design and implement web applications.
- Migrating to the newer .Net version, optimizing performance.
- Fixing bugs, supporting, and maintaining.
- Build common UI controls in the module

Technologies
- *.Net 5, entity framework core, RabbitMQ, Angular 13, Bootstrap 5, component store, Ngrx*
- Architecture pattern: Factory, Wrapper

CMS

Developer, January 2021 –January 2022

Project description
- I worked on a team of 8 members, including 1 Scrum Master, 5 developers, and 2 QCs.
- We were tasked with building the main product, CMS Web, API, and some services that support on web and mobile.

Responsibilities
- I worked with the Project Coordinator to design and implement web applications.
- Migrating to the newer .Net version, optimizing performance.
- Fixing bugs, supporting, and maintaining.
- Build common UI controls in the module

Technologies
- Dotnet 5, Angular 12, NGRX - CI/CD: VSTS, Docker
- DB: SQLServer, NEO4J
- Architecture pattern: MicroServices, NserviceBus
- Unit Test, Sonar.

CMS

Developer, March 2019 – December 2020

Project description
- I worked on a team of 10 members, including 1 leader, 8 developers, and 1 QC.
- We were tasked with building the main product, CMS Web, API, and some services that support on web and mobile.

Responsibilities
- I worked with the Project Coordinator to design and implement API for the frontend team.
- Migrating to the newer .Net version, optimizing performance.
- Fixing bugs, supporting, and maintaining.
